Katie told me yesterday that OAQPS will be doing updates to elected officials and will update the web page. I'll follow up with Alison to get the details.

Thank you for the note and the kudos! You are absolutely right – everyone was 100% dedicated to making sure the sampling schedule could be maintained regardless of the weather, shutdown or any other barrier. I add my thanks.

Subject: Willowbrook sampling pausing after March 31 run day

Hi:

I assume that Doris has passed the word but if not, March 31 will be our last Willowbrook ambient EtO sample for the time being. Future monitoring activities are

clearly TBD based on a lot of unknown factors and subsequent senior management decisions.

I would like to personally thank everyone at Region 5 for the support of this program. Your staff maintained the sampling schedule through a terribly cold winter as well as a number of unexpected and/or last minute decisions coming from HQ. At every point along the way, the Region 5 response was positive and supportive. Thanks for everything.
